Center for Bio-Ethical Reform 2018 ANNUAL REPORT

We are pleased to give you our 2018 CBR Annual Report of our public education projects and presentations. Our AbortionNO.org website is reaching people around the globe 24/7. Space is inadequate to include our international affiliates' events, but we selected a few good photos to demonstrate their excellent work.

There are additional media interviews and published stories we could not include. We thank the Lord for you and for all God is doing as we partner together for life. Keep us in your prayers as the spiritual battle is fierce.

Genocide Awareness Project (GAP) was held at Glendale Community College in Arizona on October 24-25.

Tens of thousands of school children are brought to the NMAAHC in Washington, D.C. each year. Many of them are now seeing our All Black Lives Matter signs outside the museum, as the exhibits inside the museum are silent about abortion and the high abortion rate among African Americans.

CBR takes our abortion photo trucks and signs to Christian colleges and universities because tragically, Christian students are aborting their babies and most schools are barely addressing this sin, if at all. This visit took place September 18-21.

CBR-Spain displayed abortion photos signs in Logroño, Spain on December 28, 2018. This day commemorates the time when King Herod ordered babies killed in his efforts to destroy baby Jesus. Spain is following along with the US and much of the world in liberalizing abortion laws.
