Michigan KSI Truck Assists Presidential Motorcade and Disrupts Biden Car Parade

The following is a report from our truck #213 driving team:

We were traveling our normal Key States Initiative (KSI) route in the Utica, Michigan, area when we noticed a fire truck blocking the road ahead and what appeared to be a motorcade passing by. A quick online search confirmed our suspicion this was indeed President Trump, who was campaigning in nearby locations.

After discovering where President Trump was headed next, we looked for a spot along his route where the KSI truck would be visible to him as he passed by. All side roads to the main route were blocked by law enforcement and emergency vehicles.

We parked on an adjacent road near an ambulance, after getting the EMT's okay. When the ambulance was pulled up to block that adjacent road, a car still managed to get through the blockade. Seeing that, we asked the EMT if he would like us to use our truck to more effectively block the road. He agreed.

Our KSI billboard truck was then highly visible to President Trump and the many vehicles in his passing motorcade.

But wait, there's more...

As we prepared to return the truck to home base for the day, we "mistakenly" turned at the wrong intersection. That "mistake" put us in full view of a passing Biden car parade, which was being followed by twice as many Trump supporters.

We inserted the KSI billboard truck in amongst the caravan and drove with them for a distance, so all could see the deadly result of voting for the wrong candidate.

Altogether, a very fruitful day.

God ordained that CBR Truck #213 was in place to greet President Trump while passing through Utica, Michigan, Nov. 1, 2020 on his way to the airport. President Trump was in one of the limos at left.

The photo above of the Obama limo represents the third time we got our abortion photo trucks in his line of sight, this time in Madison, WI. Below, President Obama was confronted in Lima, OH and prior to that we ran our trucks right beside the campaign bus in which he was riding in Orlando, FL in 2008.

Key States Initiative 2020 Report

by Gregg Cunningham, Executive Director

During the 2020 presidential and senatorial election campaigns, CBR operated eight of our giant billboard trucks in seven swing states, broadcasting a pro-life message seen by millions of motorists. We pounded up and down the highways, more than six hours a day, six and seven days a week, in Nevada, Arizona, Florida, North Carolina, Pennsylvania, Michigan and Wisconsin.

Pro-life candidates won in some, but not all, of those races; and CBR helped keep the outcomes close enough to deny the Party of Death any legitimate claim that America has repudiated conservative goals or granted liberals a mandate to advance a socialist agenda. I personally voted for President Trump in 2016 and did so again in 2020. I believe him to be a great president on domestic issues but less so as regards his naïvely isolationist foreign policy (except for his masterful diplomacy in Israel). His greatest liability is that he is a better president than he was a candidate. For instance, it is difficult to win the presidency without Arizona, and you don't win Arizona by making the absurd and offensive claim that John McCain wasn't a war hero because he was captured by the enemy. He had good reason to be angry with Senator McCain's petulance (which anger I shared) but you don't win votes by being vindictive in the face of spitefulness. You don't win votes by telling America that you are smarter than any of your generals when you have precisely zero experience with military affairs. You don't win votes by letting the media convince suburban women that you aren't taking a pandemic seriously.

The press unfairly exaggerated all of the president's flawed tendencies, but he endlessly gave news organizations the ammunition they needed to distort his remarks and mischaracterize his decisions. Ronald Reagan won landslide electoral victories because his dignified demeanor and charitable spirit beguiled many who disagreed with his policies.

A narcissistic Libertarian presidential candidate was on the ballot in Arizona, Georgia, Nevada and Pennsylvania, and arguably may have diverted enough votes from President Trump to give Vice President Biden victories in four states, states the president needed to get to 270 in the Electoral College. Then Pfizer Pharmaceuticals withheld (perhaps

A bittersweet incident occurred when a woman who saw a KSI truck repeatedly in Michigan communicated to us that she was happy we were out there because three of her grandchildren had been aborted. We must remain resolute so we can save future babies from abortion.

in collusion with anti-Trump, Deep State bureaucrats at the Federal Drug Administration) the announcement that they had a successful COVID vaccine until a few days after the election. Eli Lilly Pharmaceuticals did much the same with a promising new COVID therapeutic treatment. Such pandemic gamesmanship could change the election outcome.

There is no doubt that there was substantial vote fraud, as there is in every presidential election. There may well have been even more in this one, but will it be provable, and even if so, will the disputed votes (or the extent of systemic fraud) be sufficient to change the outcome? Only determined litigation can determine that.

But with the help of our donors, drivers and prayer partners, we did our best; and as Job 12:23 teaches, governments rise and fall by the hand of God. Whatever the election outcome, His hand is still upon our nation and our call to stand against injustice remains undiminished.

CBR truck #207 in Surprise, Arizona.

Baby Saved Four Years after GAP at Purdue

Awelcome gift to CBR arrived on November 7, 2020 through an AbortionNO.org website survey. A Purdue University graduate wrote: “The GAP [Genocide Awareness Project] display you guys do first opened my eyes to the pro-life movement. I just wanted to say thank you. I don’t know if that baby would be alive right now if not for you.” [Story to follow]

A.W. shared how GAP made a powerful impression on her when Purdue’s pro-life club partnered with CBR to educate students about abortion through our massive abortion photo sign display. GAP compares abortion to other recognized forms of genocide, and at Purdue, we also displayed some “ALL Black Lives Matter” signs to counter the on-campus presence of the evil BLM organization.

Since 2016, A.W. has used our AbortionNO.org website as a resource. She wrote: “I’ve had multiple conversations where I’ve pulled out the photos from your site on my phone and shown them to people while discussing abortion. One co-worker started out repeating a great deal of pro-choice rhetoric, but by the end of the conversation admitted he didn’t know much about abortion. He just couldn’t blow off those photos.”

What prompted A.W. to contact us was that God used her and a CBR photo to save a preborn baby:

I finally got on the website to give feedback because after spending years standing in front of abortion clinics doing sidewalk counseling, today I got to talk to a couple and gave them a care bag with one of your photos of a living baby in the womb at 9 weeks. I told them all about how the baby develops. After sitting for about an hour in the parking lot, they drove past me and stopped, rolled down the window, and the man who was driving reached out and shook my hand. They had the biggest smiles on their faces and said they were keeping the baby.

I know you guys get a lot of hate, but I’m grateful you keep speaking the truth regardless. After all, if people don’t like seeing accurate photos of aborted children, then maybe they should stop and think about what that says about abortion.

A.W. might not have been present at the abortion facility to save that baby (and likely others whom she does not yet know) if her Catholic roommate hadn’t invited her to join

the pro-life club. She indicated she hadn’t thought much about abortion prior to that, but she “is pro-life forever now.”

There are countless people faithfully using CBR resources -- our photos, signs, website, DVD’s, apologetics training, brochures, and more tools -- to save preborn babies’ lives. If you have a story of a baby saved using CBR resources, please email Lois@CBRinfo.org.

Your partnership is vital to our pro-life work. Thank you for helping us press on in the fight for life.

*“Yet those who wait for the Lord
will gain new strength...”
ISAIAH 40:31A*

Prayer Requests

- Justice to prevail in our nation
- For 2020-2021 GAP and Revival Projects
- Protection for all who use CBR resources to save babies

Events

Key States Initiative

Through Nov. 3 – Trucks in Florida, North Carolina, Pennsylvania, Michigan, Wisconsin, Arizona, and Nevada.

Prenatal Signs

- Nov. 1 "Non-essential" Peaceful Protest
Laguna Hills, CA
- Nov. 14 Planned Parenthood, Mission Viejo, CA

Speaking Engagements / CBR Resource Table

- Nov. 1 “Non-essential” Peaceful Protest
Laguna Hills, CA
- Nov. 30 Apologetics Training, Glendale, AZ

Post-carding

- Nov. 1 Worship and Prayer Rally
Arizona State Capital

“ *I don't know if that baby would be alive right now if not for you.* ”

Purdue University alumna

All corners of this busy intersection near the Mission Viejo, CA, Planned Parenthood were decorated with our prenatal photo signs, including this one of a human fetus at nine weeks of age. Although most drivers gave us thumbs up and friendly honks, about six pro-aborts cursed us and one cursed our God. Photos of preborn babies made in God's image are a threat to the enemy of our souls and those deceived by him. We prayed for each one who cursed.
