# CBR-UK's Message Resonates at Freedom March

**P**eople in the United Kingdom are fed up with severe lockdowns that have continued for 16 months, and one form of outcry has been two recent Freedom Marches in London. CBR-UK recognized this was an opportunity to take our pro-life photo signs out to the crowds of marchers to educate them about prenatal life, abortion and the abortion connection to COVID vaccines. The number of marchers were estimated to be as high as 1 million people, and they marched through notable locations like Piccadilly Circus.

The CBR-UK team has been using a sign they created which features the former Secretary of State for Health and Social Care Matt Hancock, who recently resigned for violating his own COVID restrictions. This is ironic as Mr. Hancock continually repeated his anthem to urge people to “stay at home, protect the NHS and to save lives” and to “follow the rules.” The NHS is the National Health Service.

Pro-aborts seized on the pandemic as their opportunity to push DIY abortions at home. In response to their

*BELOW: This new sign was developed by CBR-UK and was widely viewed during the Freedom March in London.*

lobbying, Mr. Hancock changed the abortion measures under an emergency Coronavirus bill without any debate or consultation. This healthcare plan was rushed through Parliament, and it approved “pills by post” to ensure that pregnant women could abort their babies right in their homes. Learn more details through this excellent video produced by CBR-UK: [Hancock's Healthcare - Centre for Bio-Ethical Reform UK \(cbuk.org\)](https://www.cbuk.org/hancock-healthcare)

Hancock has additionally urged citizens to take the U.K. COVID vaccines, all of which were developed using aborted fetal tissue. Accordingly, CBR-UK brought their “Hancock sign” along with other powerful signs to the crowds at the June 26 Freedom March. The response was tremendous. Many marchers had no idea that abortion was connected to the COVID vaccines. Our team reported that the Matt Hancock photo on the CBR-UK sign was gleefully defaced by many passersby. The lockdown has brought much angst, yet CBR-UK noted that this march connected them with scores of people who are concerned about free speech rights. Huge numbers were supportive of our message.

### *FREEDOM MARCH (Continued from page 1)*

Ruth Rawlins, CBR-UK Head of Communications, stated: “The secular people on the Freedom March were hungry for truth. People were thanking us for being there and for educating them. It was the most receptive audience ever experienced on a display.”

The following day, Sunday, June 27, a CBR-UK team brought the signs to the road outside Kingsway International Christian Centre, a megachurch, and the church overall displayed less enthusiasm than the Freedom Marchers. There was an interest from parishioners - with cars slowing down as they passed our roadside display, with some smiles and waves. The church had security guards present, keeping an eye on our well-behaved team.

KICC was chosen because the church’s preaching pastor, Matthew Ashimolowo, had set up a COVID vaccination site. The church leaders ignored letters from Dave Brennan at CBR-UK/Brephos, letters that urged the church to not promote vaccines that were developed with aborted fetal tissue, asking them “to reconsider lending such wholehearted support to these particular vaccines, promoting them by way of offering up your church building for a vaccination center.”

This church has an international presence, and Pastor Ashimolowo has used his influence to promote COVID vaccines, including announcing when he was going to get the vaccine. He admonished members at the KICC Maryland Prayer Dome in Lagos, Nigeria: “Don’t listen to conspiracy theorists. Some have said a lot of things about the vaccine. Don’t listen to them. In fact, block them for some time.”

ChurchMilitant.com described CBR-UK’s campaign outside the “largest megachurch, raising awareness of the abortion-tainted experimental jab after the church’s prosperity gospel-preaching pastor Matthew Ashimolowo offered COVID-19 shots between Sunday services.” Church Militant labeled the church’s vaccine center as “a bid to aggressively push the jab to Britain’s black and ethnic minorities.” [Pro-lifers Picket Vax-Peddling Megachurch \(churchmilitant.com\)](https://www.churchmilitant.com)

The theme of CBR-UK’s church sign display was: “Don’t Forget Johanna,” a pseudonym created by CBR-UK to acknowledge the personhood of a healthy Dutch baby girl who was killed through a 1972 abortion. Johanna’s kidneys were used to create a cell line called HEK-293 (HEK signifies Human Embryonic Kidney). All three COVID-19 vaccines available in the U.K. were developed using her cell line. [Why are we taking our abortion-vaccine display outside KICC this Sunday? - Centre for Bio-Ethical Reform UK \(cbruk.org\)](https://www.cbruk.org)

Brennan pleaded in a letter to Kingsway International Christian Center: “Whilst we appreciate your desire is to care for the health of those around you, the reality is that these vaccines further normalize and encourage the torture of human babies — made in God’s image — for their organs to be used as medical resources.”

As in the U.S., COVID vaccines are resulting in hundreds of thousands of adverse reactions, including myocarditis and blood clots. The U.K.’s [Medicines and Healthcare Products Regulatory Agency](https://www.mhra.gov.uk) data through June 30 recorded 1,440 deaths after COVID vaccines. Current U.S. figures are 9,048 deaths reported following COVID vaccines given Dec. 14, 2020 through July 2, 2021. [Number of Deaths Reported After COVID Vaccines Jumps by More Than 2,000 in 1 Week, According to VAERS • Children’s Health Defense \(childrenshealthdefense.org\)](https://www.childrenshealthdefense.org). Note that Vaccine Adverse Event Reporting System (VAERS) figures may represent fewer than 1% of vaccine injuries. [Vaccine Safety Advocate Tells RFK, Jr.: VAERS Protects Vaccine Makers, Not Kids • Children’s Health Defense \(childrenshealthdefense.org\)](https://www.childrenshealthdefense.org)

Ashimolowo does not acknowledge the vaccine-abortion connection, nor the loss of life from the vaccines themselves. Similar to how Planned Parenthood founder Margaret Sanger recognized the key to promoting birth control to blacks was through influential pastors, the secular publication *The Optimist* [praised](https://www.theoptimist.com) the Nigerian pastor as one of Africa’s faith leaders who holds “the key to dispelling vaccine doubts.”

CBR-UK Director Andrew Stephenson sees this lack of church response to matters concerning aborted children to be something that can be used to our advantage in the coming months. People are not seeing the church stand against evil. CBR will continue to call the Church to recognize abortion as child sacrifice and to urge her to speak up for the least of these.

*Freedom Marchers stopped to read the CBR-UK “pills by post” sign.*

*The CBR-Wales team was out educating the public on a very hot June day on busy Queen Street, Cardiff City Centre, in South Wales.*

## Thank you for your continued support as we expose the wickedness of abortion.

*“Nevertheless, the firm foundation of God stands, having this seal: ‘The Lord knows those who are His;’ and, ‘Everyone who names the name of the Lord is to keep away from wickedness.’”*

*II TIMOTHY 2:19*

### Prayer Requests

- CBR-UK and CBR-Wales team building
- For pastors to lead their flocks to stand for the sanctity of human life
- Protection for our teams conducting public sign displays

### Events

#### CBR Summer Intern Program

##### *May 17 to August 6*

June 30	Hand-held GAP, Knoxville, TN

# CBR-Wales moves forward after Lockdown

Our CBR international affiliates are committed to educating their countries about the sanctity of human life. CBR-Wales is part of CBR-UK, so they experienced the same draconian lockdowns as the other U.K. countries that made it largely unlawful for people to leave their homes, much less conduct photo sign displays. As soon as some restrictions were eased, CBR-Wales got back out in Cardiff City Centre and has already held two sign displays. The next one is set for July 21.

Director Tony Kells noted: “We’ve received more than usual positive interest from the passing public.” He also shared that they have a good relationship with the South Wales police.

They face the odd “drive by” comments from those with no argument to support their pro-abortion views. Pro-abortion people are much the same worldwide.

Pray for Tony as they are in the process of team building and searching for new volunteers. Satan is not pleased when they stand out in public, so they are experiencing spiritual attacks.

*In Cardiff City Centre, South Wales, our CBR-Wales team is seen engaging with passersby. Our photographic images were viewed by thousands of people that day. Note the huge signs they display using a distinctive box frame.*

“ *The secular people on the Freedom March were hungry for truth.* ”

**CBR-UK**

*London Freedom Marchers proceeded by the thousands past the CBR-UK signs.*
